

My Attachments

Here are some attachments. They're also available at <http://static.duraspace.org/test/>

Notice that the "/" character is written as ">" in the subdir paths below. This is because Confluence doesn't allow attachments with "/" in their name to be downloaded. When delivered via static.duraspace.org, the path separator character "/" is auto-translated to ">" under the hood so that Confluence correctly delivers the content at a normal-looking path.

File	Modified
PNG File image.png	Jul 27, 2010 by Chris Wilper
HTML File index.html	Jul 27, 2010 by Chris Wilper
Text File README	Jul 26, 2010 by Chris Wilper
