

Homepage Overview

Homepage Overview

- For example: <http://demo.dspace.org/>

(DSpaceDirect demonstration repository homepage, pictured above)

- Provides a good overview of the basic features DSpace offers:
 - Side Menu
 - Search
 - Based on where you are in system, this also lets you search an individual Community or Collection
 - Browse By options
 - Based on where you are in the system, these also let you browse an individual Community or Collection
 - My Account
 - Options to login & register (more info below)
 - "Discover" works by authors/subject/dates
 - Based on where you are in the system, these lists will change to become Community/Collection specific
 - RSS Feeds
 - Based on where you are in the system, these links provide RSS/Atom Feeds specific to an individual Community or Collection
 - Content Area
 - Introductory Text (customizable)
 - "Top-level" Community listing (just displays the very top of the hierarchy)
 - Recently Added Items
 - This listing also appears on individual Community or Collection pages (at which point it is Community/Collection specific)
