2013-12-12 - Fedora Committer Meeting

Time/Place

This meeting is a hybrid teleconference and IRC chat. Anyone is welcome to join...here's the info:

- Time: 11:00am Eastern Daylight Time US (UTC-4)
- ReadyTalk:
  - U.S.A/Canada toll free: 866-740-1260, participant code: 2257295
  - International toll free:
    - http://www.readytalk.com/intl
    - Use the above link and input 2257295 and the country you are calling from to get your country's toll-free dial-in number
    - Once on the call, enter participant code 2257295
- IRC:
  - Join the #duraspace-ff chat room via Freenode Web IRC (enter a unique nick)
  - Or point your IRC client to #duraspace-ff on irc.freenode.net

Attendees

- frank asseg
- Chris Beer
- Unknown User (escowles@ucsd.edu)
- Osman Din
- Michael Durbin
- Ed Fugikawa
- Eric James
- Greg Jansen
- A. Soroka
- Andrew Woods

Agenda

1. Holiday release goals and status
   a. identify not yet finished key capabilities
   b. identify untested features
   c. identify undocumented features
2. A few new namespaces have been proposed (http://fedora.info/definitions/v4/config# and http://fedora.info/definitions/v4/indexing#). Are these useful and meaningful, or should the predicates be included in one of the existing namespaces such as http://fedora.info/definitions/v4/repository# ?

Previous Actions

-

Status

Osman

Esme

- Finished testing large file ingest, comparing federation to REST API.
- Updating REST API and Triplestore documentation.

Mike

- Work on the "feature tour" documentation.
- Work on some feature documentation and organization.

Nigel

Eric

- external indexing - code, review, documentation

Frank

Adam

Chris

- Will be reviewing, squashing/merging/committing tickets

Ben

Scott

- Finished document: How to Configure Servlet Container for Authentication
- Finished performance test: AuthZ/No AuthZ
- This weekend, next week: continue content-model-to-node-type documentation
- This weekend: submit benchtool PR with authentication fixes (completed, need to test with Fedora 3)

Greg

- moved and updated glossary
- updated RESTful API to include roles endpoint
- preparing PRs for authz
- upcoming: more documentation, review of authz docs
- upcoming: some remaining PR edits
- upcoming: make jetty.users.file a maven system property (as per Scott's tests)

Andrew

Minutes

- overview of Holiday release goals and status - Mike
- Authorization - Greg

    - reported updates and discussed changes to configuration
    - discussed multiple release builds to make it easier to have users test
    - discussed enabling user to make configuration changes at startup in future release
    - discussed include a default admin user in upcoming release in addition to current configuration
- content modelling - overview documentation forthcoming
- large files - Frank

    - will continue to work on testing with new ModeShape
    - will continue analysis of new ModeShape impacts on performance
- external search documentation - Eric
    - documentation and testing continuing
    - framework is in place to get the work done
- internal search has been tested
- versioning - need use cases
- Issue of restarting and Perm Gen will need to be addressed in future release
- performance

    - document performance results as a point of reference for users
    - test different configurations for the default releases
- cluster not yet ready for general testing but documentation will be available for helping those interesting in clustering
- namespaces - Esme

    - discussed advantages of different approaches to adding namespaces and the impacts on users

New Actions

- two WAR files will be created, one with an admin user and one without
- testing and documentation will contunue
