Facilitators

- Gabriel Birke – TIB Hannover (German National Library of Science and Technology)
- Lukas Koster – Library of the University of Amsterdam
- Violeta Ilik – Texas A&M University Libraries
- Ted Lawless – Brown University

Conference information - <http://elag2014.org/programme/elag-2014-bootcamps/bootcamps-l-koster/>

Shared files

via Google drive: https://drive.google.com/folderview?id=0B0YYi_FnkKQ-d2J0WGN3UFM1V2s&usp=sharing

Contents:

- Disk image with VIVO (1.5 and 1.6) and tool bundle (Karma 1.97, Refine, ..).
- Sample test data files are under the folder named Karma. You are encouraged to bring your own local data. The best format is the tab separated (tsv) or comma separated (csv).

wiki accounts

- **To edit the wiki you will need a DuraSpace account. To obtain one, send email to sysadmin@duraspace.org, and a real live person will send you a message with a signup link**

Possible topics

If you will be attending, please add a topic or idea you would like to discuss here.

Resources

- [VIVO Vagrant](#) - VIVO Vagrant provision script for setting VIVO up locally.
