

Use Case 1.1 - All pages updates - Requirements

Use Case 1.1 - Common Changes for ALL pages

Item	Overall Progress	Priority	Developer	Description	Dependencies	Comments
External						
			Lynette R. (Cornell)	Clone of CUL discovery & access website.	<ul style="list-style-type: none"> External: Determine where to push code that is specific to Cornell. 	Current work is a proof of concept (POC). It will not be added to the live discovery & access website. POC will be done in a cloned copy of discovery & access as a demonstration that will allow planning groups to understand the concepts and determine the best way to integrate with the live discovery & access system should the POC be deemed valuable.
Infrastructure – NONE						
Model – NONE						
User Interface						
			Lynette R. (Cornell)	Add link to My Virtual Collections in banner beside My Account.	<ul style="list-style-type: none"> UI: My Virtual Collections page exists. (Requirements Mockup) External: Clone of CUL discovery & access website. 	Link is in prototype. Requires design approval from D&A search UI team. May need to only show up for logged in library staff.
