

# DCAT Meeting August 2014

## Date & Time

- **Main call** Tuesday, August 12 2014, 15:00 UTC/GMT - 11:00 ET
- **Satellite call** Wednesday, August 13th 2014 07:00 UTC/GMT - 03:00 ET

[What is the difference between the "main call" and satellite call?](#)

## 2014 Meeting objectives

From August until December 2014, the monthly DCAT meetings are centered around defining, refining and prioritizing DSpace use cases.

These use cases are expected to have an important impact on the medium and long term roadmap of DSpace, starting with DSpace 6 in 2015.

## August Meeting Agenda: End user use cases

During the august meeting we will be discussing use cases that affect users who use DSpace:

- as anonymous, non-logged in users
- as registered, logged-in users who do not have any specific administrative rights or responsibilities. For such users, submission can fall under the use cases.

Read more about certain use cases that were already identified: [Use Cases](#)

## Discussed use cases

- Seeing only those items listed the user has access to, through all of the DSpace interfaces (honouring permissions) - Terry Brady
- [Viewing video from DSpace pages, for videos hosted in DSpace](#) - Terry Brady
- [Viewing video from DSpace pages, for videos hosted elsewhere \(internal streaming server, youtube, vimeo\)](#) - Terry Brady, Kate Dohe, Kim Shepherd
- [Permission handling with regards to streaming video](#) - Terry Brady, Kim Shepherd
- [Accessing documents in the browser with page-turning functionality](#) - Terry Brady
- [A consistent faceted browsing experience across all of DSpace \(eliminating Browse/Discovery inconsistencies\)](#) - Daryl Grenz
- [Easier access to items related to a specific metadata value for another item \(clickable author names & other authorities\)](#) - Daryl Grenz & Jim Ottaviani
- [Getting a clearer representation of the different roles a faculty member had in the creation of an item \(faculty profile page - difference advisor /creator\)](#) - Daryl Grenz
- [Editing my own archived submissions](#) - Yu "Lilly" Li & Sarah Potvin
- [Tagging photos and other forms of crowdsourced metadata](#) - David Schuster
- [Enhanced visual access to collections with images or rich thumbnail representations of other files](#) - David Schuster
- [Discovery and retrieval of content on mobile devices](#)
  - It was also noted that there are administrative use cases on mobile.
- [File upload first submission and automated metadata extraction](#) - Kim Shepherd
- JSPUI – Login as Dspace admin --> Edit Collection --> Land to Policies for Collection "Your Collection" – There should be back button.- Hardik Mishra

## Call Attendees (main+satellite)
