

End User - In-browser page turner for accessing text based materials

Title (Goal)	In-browser page turner for accessing text based materials
Primary Actor	Human
Scope	Item pages, bitstream access
Level	
Story (A paragraph or two describing what happens)	As an end user who doesn't have any specific software installed for a particular type of file, I expect that the system will offer me in-browser page turning functionality when I click on a link to a text-based bitstream.
