

eResearch Australasia Fedora 4 Training Workshop - 31 Oct 2014

What

eResearch Australasia Fedora 4 Training Workshop ([registration](#))

Where

Pullman Melbourne Albert Park
Melbourne, AU

When

31 October 2014
9:00am - 5:00pm

Attendees

The list of attendees will be posted following the meeting.

Agenda/Presentations

Time	Topic	Presenter
9:00 - 9:30	Welcome and Introductions	All
9:30 - 10:30	Fedora 4 Overview	David Wilcox, DuraSpace
10:30 - 11:00	Morning Tea	
11:00 - 12:00	Migration Features and Strategies	David Wilcox, DuraSpace Arif Shaon, UNSW
12:00 - 12:30	Migration Use Cases	All
12:30 - 13:30	Lunch	
13:30 - 14:00	Fedora Integrations	Euwe Ermita, UWS
14:00 - 14:45	Installing and Configuring Fedora 4 (Part 1)	David Wilcox, DuraSpace
14:45 - 15:15	Afternoon Tea	
15:15 - 16:15	Installing and Configuring Fedora 4 (Part 2)	David Wilcox, DuraSpace
16:15 - 16:45	Developer Introduction	David Wilcox, DuraSpace
16:45 - 17:00	Wrap-up and Discussion	All

Summary

Fedora is a robust, modular, open source repository system for the management and dissemination of digital content, including research data. With input from the developer community, Fedora has transformed over the past 12 months from 'old code' to modern code, ensuring its flexibility, sustainability and relevance into the future.

This workshop is aimed at repository managers and developers. It will provide an overview of Fedora 4, the new version of the software, and provide an opportunity for attendees to engage with the project team. The workshop will also feature a discussion on migrating content to Fedora 4 from other repository systems, along with demonstrations of Fedora integrations. Managers will learn how Fedora 4 can support their use cases, and how to install and configure the latest version of the software. Developers will learn how to familiarize themselves with the Fedora 4 codebase, including the tools and processes used by the core Fedora 4 developers.

Two of the overall aims of the workshop are to encourage familiarity with and uptake of Fedora 4 within the Australian repository community, and to bring Australian developers into the global Fedora community and raise our profile in the research support arena.

For more information, please contact David Wilcox (dwilcox@duraspace.org).
