

Installing Java SE 7 jdk

Editor's "To Do" list

- create separate sub page dedicated for JavaSE install
- clarify steps are for Ubuntu via "apt"

Install Java SE 7 jdk (Oracle) via "apt"

Open a command line interface and enter the following (Ubuntu):

Installation instructions for Java SE 7 on Ubuntu

```
$ sudo add-apt-repository ppa:webupd8team/java
$ sudo apt-get update
$ sudo apt-get install oracle-java7-installer
$ sudo apt-get install oracle-java7-set-default
```

For other *nix variants you may have to add other repos or manually download and install Java.
