

APPENDIX A - SELECTED READING

Useful External Links

General

Creating Fedora Objects Using the Fedora Content Model Architecture: <http://wiki.duraspace.org/display/FEDORACREATE/Tutorial+2+-+Creating+Fedora+Objects>

Information for creating ITQL queries: <http://docs.mulgara.org/itqlcommands/index.html>

Fedora XACML Policy Writing Guides: (For assistance in creating new policies for your repository and for your objects): <http://fedora-commons.org/download/2.1/userdocs/server/security/XACMLPolicyGuide.htm>

Hand writing XACML policies can cause unexpected behaviour. We suggest using the [XACML Editor](#) instead.

Fedora Digital Object Model: <https://wiki.duraspace.org/display/FEDORA37/Fedora+Digital+Object+Model>

Introduction to RELS-EXT: <http://fedora-commons.org/download/2.0/userdocs/digitalobjects/introRelsExt.html>

About Fedora PIDs: <https://wiki.duraspace.org/display/FEDORA37/Fedora+Identifiers#FederalIdentifiers-PIDs>

Solr Reference Guide: <http://lucidworks.com/blog/solr-reference-guide/>

Virtual Box: <http://download.virtualbox.org/virtualbox/4.1.2/UserManual.pdf>
