

2014-11-10 to 2014-11-21 Sprint28 Stand-up Mtgs

- Attendees
- General
- Meetings
 - 11/10
 - 11/11
 - 11/12
 - 11/13
 - 11/14
 - 11/17
 - 11/18
 - 11/19
 - 11/20

Attendees

- Andrew Woods
- David Wilcox ★
- Osman Din
- Michael Durbin
- Yinlin Chen

General

- Indicates who took minutes - ★
- Call-in: Google-hangout at:

Meetings

11/10

[Sprint planning](#)

11/11

- Mike
 - Looked at common Google searches to see why people keep finding bad instructions for file system federation
 - A page from the hackfest came up pretty prominently
 - Maybe move to archived pages section
 - Don't show jcr exceptions in error messages
 - <https://www.pivotaltracker.com/story/show/82412616>
 - Hard to make a test to address this due to Jersey2/Grizzly dependencies
 - Text in entity isn't present in Grizzly
 - Easy to just not include a message, but we could also sanitize messages when generated
 - Trying to squash bugs as they come in
- Osman
 - Started working on 'Integration tests to 80%'
 - <https://www.pivotaltracker.com/story/show/81483926>
 - Identified approach
 - Created list of classes that need the most modifications
 - Most classes have good coverage but some fall far below
 - For classes with good coverage, added some minor tests
 - Setup Eclipse to make sure the coverage matches that being reported by Sonar
 - Create Tombstone on MOVE
 - <https://www.pivotaltracker.com/story/show/82253464>
 - PR incoming
- Yinlin
 - Looking at documentation tickets
 - Will start with 'Review/exercise "Quick Start"'
 - <https://www.pivotaltracker.com/story/show/82482412>

11/12

- Mike
 - Working through bugs
 - UI bugs from jcoyne
 - 2/3 of the way through
 - Will move on to other bugs or docs
- Osman
 - Reviewing docs
 - Made a few changes
 - Adding integration tests
 - <https://www.pivotaltracker.com/story/show/81483926>
 - PR submitted and accepted
 - New PR submitted this morning
 - Will keep adding tests
 - Create Tombstone on MOVE
 - <https://www.pivotaltracker.com/story/show/82253464>
 - Will work on this today
- Yinlin
 - Working on Feature Tour and REST API docs
 - <https://www.pivotaltracker.com/story/show/82482450>
 - Some differences with Beta-04
- David
 - Working on Fedora 4.0 Beta 4 release notes
- Andrew
 - Helping Aaron with Camel work
 - Issues with Jenkins/Sonar

11/13

- [Committers Meeting](#)

11/14

- Mike
 - Working through bugs
 - Doing import with an invalid file gives no errors
 - <https://www.pivotaltracker.com/story/show/82429414>
 - Creates nodes when you pass in an XML file
 - If you pass in an empty XML file it will create 0 nodes and report that everything worked
 - Restrict to JCR/XML?
 - Can we casually validate? Not strictly against schema.
 - Will write test to catch maliciously/carelessly crafted JCR/XML files
 - Hoping to knock out remaining bugs today
- Osman
 - Integration tests to 80%
 - <https://www.pivotaltracker.com/story/show/81483926>
 - New PR for fcrepo-transform
 - Getting a strange stack trace from LevelDB
 - Installed Sonar but not getting correct coverage from local install
 - Working with Aaron to get this working
 - Creating technical implementation glossary
 - No work on tombstone ticket yet
- Yinlin
 - Working on API docs
 - Some differences between the implementation and the docs
 - Andrew is reviewing documentation work and providing feedback

11/17

- Mike
 - Doing import with an invalid file gives no errors
 - <https://www.pivotaltracker.com/story/show/82429414>
 - Was no validation before
 - Trying to find a good, maintainable approach for validation
 - Clean up HTML view of version display pages.
 - <https://www.pivotaltracker.com/story/show/82604376>
 - Not displaying controls that don't work for versions
- Osman
 - Create Tombstone on MOVE
 - <https://www.pivotaltracker.com/story/show/82253464>

- Created PR this morning
 - Tested and modified PRs
 - Added 3 more tickets/PRs for integrations testing
 - Grinder framework
 - Working this today
- Yinlin
 - Updated to Beta 4 for screenshots in docs
 - Working on RESTful HTTP API
 - Adding a few responses that were missing

11/18

- Osman
 - Configure fcrepo-test-grinder for fcrepo4 work
 - <https://www.pivotaltracker.com/story/show/76247430>
 - Created script to match test assessment doc
- Yinlin
 - REST-API docs
 - Focusing on these issues today
 - Community question
 - Will answer question on list based on changes between F3 and F4
- Mike
 - Verify import/export of /fcr:metadata.
 - <https://www.pivotaltracker.com/story/show/82748100>
 - Interface doesn't include parameter options
 - By default, no recursion and no binaries, which is not useful
 - Will expose these options through the UI
 - Exception mapping
 - Mike and Yinlin will need to work together to identify which messages display stack traces or JCR concepts and remap them

11/19

- Mike
 - Wrapping up 'Verify import/export of /fcr:metadata.'
 - <https://www.pivotaltracker.com/story/show/82748100>
 - Version management restrictions are confusing.
 - <https://www.pivotaltracker.com/story/show/82854900>
 - Fixing critical issues rather than refactoring
 - Still some issues with labeling versions
 - Will need to do some refactoring for a future release
- Osman
 - Configure fcrepo-test-grinder for fcrepo4 work
 - <https://www.pivotaltracker.com/story/show/76247430>
 - Created a page for test results
 - Grinder uses a lot of memory/threads
 - Multiple workers use too many resources
 - Review/exercise "Features" - and subpages - except "RESTful HTTP API"
 - <https://www.pivotaltracker.com/story/show/82482534>
 - Will investigate today
- Yinlin
 - Review/exercise "RESTful HTTP API" - Transactions and Transform
 - <https://www.pivotaltracker.com/story/show/82667470>
 - Finished and submitted for review
 - Responded to community issue re: transforms and added documentation
 - Will finish all assigned tickets today

11/20
