

Integrations - Importing data from discipline-specific systems into DSpace

Title (Goal)	people should be able to make snapshots on discipline-specific systems and easily add those to their repository
Primary Actor	External System
Scope	overall system
Level	high level summary
Story (A paragraph or two describing what happens)	After pete and his colleagues shared and discussed some data on a discipline-specific platform, Pete wants to submit it to his repository. He doesn't want to submit everything again manually to DSpace, so he simply takes a snapshot of the data which is automatically added to the repository.
