Implementation and Development Call 20141204

Shortcut to temporal Google doc for meeting notes: http://goo.gl/YcaKkf

Announcements

- Apps & Tools Working Group: next call December 16 at 1pm ET
    - Josh Hanna from UF will detail how he hooked a test VIVO 1.7 vagrant at UF up to an alternative triple store (StarDog). He has ingested all 18 million UF VIVO triples.
    - Eliza from Weill-Cornell has also been invited to discuss her work with Virtuoso
- Ontology Working Group: next call December 30 ❓ at 1pm ET
    - On the Tuesdays when there is not a call, there are Ontology Office Hours using the same call-in information as the main Ontology calls
- **VIVO Implementation Fest 2015** -- please hold the week of March 16-20 for the 2015 implementation Fest to be hosted by Oregon Health and Science University in Portland – event is expected to last 2-3 days at the beginning or end of that week

Theme: VIVO Developer Panel

The Developer Panel helps you see what is happening inside your VIVO instance. It can be helpful in debugging templates, diagnosing performance issues, and more. See https://wiki.duraspace.org/display/VIVO/The+Developer+Panel for more information.

Jim Blake will start with a quick tour of the panel's functions and then we'll move to open discussion. Possible topics include:

- How are functions chosen for the developer panel?
- How to troubleshoot a performance issue?
- How to avoid "drinking from the fire hose"?

Notable List Traffic

See the vivo-dev-all archive and vivo-imp-issues archive for complete email threads
