

Structure - Create the ability to place "dynamic collections" (pre-faceted view of a collection) within the community hierarchy.

Title (Goal)	Create the ability to place "dynamic collections" (pre-faceted view of a collection) within the community hierarchy.
Primary Actor	Human
Scope	
Level	
Story (A paragraph or two describing what happens)	<p>A collection exists for an academic department. User needs to view only the ETD's in that collection.</p> <p>Rather than modifying the sub-community/collection hierarchy to accomplish this, a dynamic collection could provide a filtered view into a logical collection without requiring the user to select faceted searches.</p>
