

VIVO 1.7 Documentation

These pages contain contributions from many members of the VIVO community.

Confluence may state that a certain person has "created" a page, when in fact they have merely split an existing page in two, or merged two existing pages together. In this way, the pages may appear to be the work of a single person.

Everyone who has worked on VIVO deserves recognition and thanks.

Additional Technical Documentation

In addition to documents for the current release, this section of the wiki contains many additional documents relevant to installing, maintaining, and contributing changes to VIVO. Please see the left hand menu for additional technical information regarding VIVO.
