

Annotations on the ontology

Use the interactive editing screens to change the appearance of properties, classes, property groups and class groups.

- [Edit property groups](#) — Divide a long list of properties into groups. Name the groups and assign a display order.
- [Edit the appearance of properties](#) — Change how VIVO displays properties on a profile page.
- [Edit class groups](#) — Control the labels of class groups, and the order in which they appear.
- [Edit the appearance of classes](#) — Change how VIVO displays classes, individually or in class groups.
