2015-06-04 - Fedora Tech Meeting

Time/Place

This meeting is a hybrid teleconference and IRC chat. Anyone is welcome to join...here's the info:
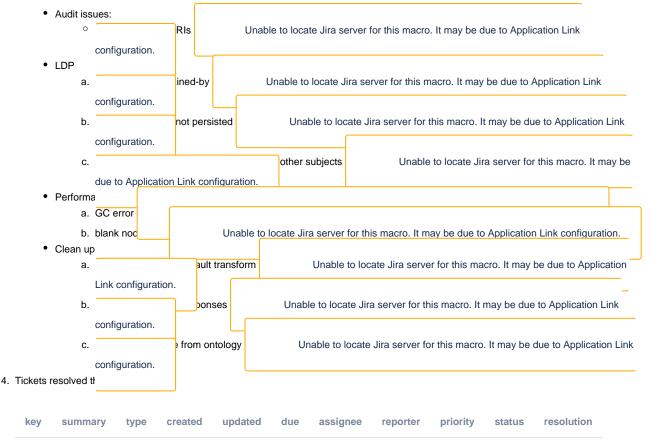

- Time: 11:00am Eastern Daylight Time US (UTC-4)
- U.S.A/Canada toll free: 866-740-1260, participant code: 2257295
- International toll free: http://www.readytalk.com/intl
  - Use the above link and input 2257295 and the country you are calling from to get your country's toll-free dial-in number
  - Once on the call, enter participant code 2257295
- IRC:
  - Join the #fcrepo chat room via Freenode Web IRC (enter a unique nick)
  - Or point your IRC client to #fcrepo on irc.freenode.net

Attendees

- A. Soroka
- Unknown User (acoburn)
- Michael Durbin
- Yinlin Chen
- Andrew Woods
- Osman Din
- David Wilcox ⭐
- Stefano Cossu
- Jon Roby
- Unknown User (escowles@ucsd.edu)
- Unknown User (daniel-dgi)
- Doron Shalvi

Agenda

1. Islandora / F4 migration update
2. Open Repositories committer meeting planning
3. From last week: High-priority issues

   - Audit issues:
     - RIs   Unable to locate Jira server for this macro. It may be due to Application Link configuration.
   - LDP
     a.   ined-by   Unable to locate Jira server for this macro. It may be due to Application Link configuration.
     b.   not persisted   Unable to locate Jira server for this macro. It may be due to Application Link configuration.
     c.   other subjects   Unable to locate Jira server for this macro. It may be due to Application Link configuration.
   - Performa
     a. GC error
     b. blank nod   Unable to locate Jira server for this macro. It may be due to Application Link configuration.
   - Clean up
     a.   ault transform   Unable to locate Jira server for this macro. It may be due to Application Link configuration.
     b.   onses   Unable to locate Jira server for this macro. It may be due to Application Link configuration.
     c.   from ontology   Unable to locate Jira server for this macro. It may be due to Application Link configuration.

4. Tickets resolved th

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

> Unable to locate Jira server for this macro. It may be due to Application Link configuration.

5. Tickets created this week:

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

> Unable to locate Jira server for this macro. It may be due to Application Link configuration.

6. ...

Minutes

Islandora/F4 migration

- Some migration-utils issues turned out to be difficult
    - Utility will maintain a list of mappings during migration
    - Currently no tooling to address URL redirects at the application level (e.g. redirecting a legacy F3 URL request to the new F4 URL)
        - Aaron plans on using a key-value store to handle the redirects
            - Use a service to do a lookup in the database and redirect to the new F4 URL
- Pull request to provide properties file to declare namespace prefixes before migration starts
    - Otherwise default namespaces get created (ns01, ns02, etc.)
    - Namespace prefixes can't be changed once created (as per ModeShape). But they can be remapped.
    - Could build a separate utility
    - Andrew will create a ticket :   Unable to locate Jira server for this macro. It may be due to Application Link configuration.

OR2015 conference planning

- PCDM - making sure our efforts are aligned
    - What aspects of PCDM are now implemented in Sufia? Do we all agree and plan to implement elsewhere accordingly?
    - Perhaps discuss over lunch?
    - Google Doc signup sheet? Doodle poll?
- Committers meeting
    - People should come with a plan to be actively involved in the discussions
    - Agenda online
    - Software dependencies
        - Packages, OSGi support, dependency chains, etc.
    - Migrations plans
        - When are people migrating?
        - What are the blockers?
