## Announcements

- VIVO 2015 Conference Updates
  - More info on program, workshops, and venue at <http://vivoconference.org/>
  - **Call for Apps opening soon**
    - Each year, the VIVO conference sponsors a competition for software applications using VIVO data. The winner will receive an award and will be recognized during the conference. Start thinking of your submissions now and stay on the lookout for more info
  - Follow the conversation on Twitter at [#VIVO15](#)
- Project Director Mike Conlon's weekly email: [2015-06-21 VIVO Project Updates \(archive\)](#)
- **Ontology Working Group:** next call June 30 at 1 PM Eastern
  - When there's no Apps & Tools or Ontology call, there's usually an "office hours" call for informal, unscripted questions about the ontology
- **Apps & Tools Working Group:** next call July 14 at 1 PM Eastern
  - Link to [presentation sign up sheet](#)
  - Link to [presentation template](#)
- **Outreach and Engagement Working Group:** co-chaired by Julia Trimmer of Duke and Kristi Holmes of Northwestern, this group's regular call series restarts Tuesday, July 21 at 1 PM Eastern
- **Task Force Updates:**
  - A new task force is forming. [VIVO in a Networked Research EcoSystem \(NetRES\)](#), led by [Jing Wang](#) will consider approaches to data redundancy, including cross-linking VIVO's. Results will be presented at a panel discussion at the VIVO Conference. If you are interested in participating, please contact Jing Wang.
  - The [Asset Inventory and Recommendations Task Force](#) will have draft recommendations for community review shortly. Thanks to all who helped review the asset inventory and those who contributed suggested recommendations. VIVO has accumulated a large collection of materials. The task force will recommend ways for VIVO to slim down and organize its assets.
  - The [VIVO Contributed Software Task Force](#) is also finalizing recommendations. The group has reviewed methods for including contributed software in VIVO releases.
  - The [VIVO Implementation Documentation Task Force](#) is developing a high level project plan view of a VIVO implementation that includes project management, data management, outreach and engagement, and technical development. The high level view will provide structure for materials supporting each activity. In addition, the group has significantly improved the [VIVO Glossary](#).

## Theme: VIVO Roadmap Process

- The VIVO [Roadmap Process](#) describes steps that will be taken to develop a roadmap incorporating the principles described above. As steps are completed, the page will be updated. The VIVO project director will be responsible for overseeing the process and engaging the community in the process. A task force will be formed to take input from the community and develop a draft roadmap for consideration by the Steering Group and then by Leadership. Status of the process will be reported each week in [VIVO Updates](#).
- We are entering week three of the public discussion of roadmap items. Mike Conlon will be joining us today to participate in the discussion, and answer any questions you may have about the process.
- More information on wiki at [VIVO Roadmap Process](#)
