2015-09-24 - Fedora Tech Meeting

Time/Place

This meeting is a hybrid teleconference and IRC chat. Anyone is welcome to join...here's the info:

- Time: 11:00am Eastern Daylight Time US (UTC-4)
- U.S.A/Canada toll free: 866-740-1260, participant code: 2257295
- International toll free: http://www.readytalk.com/intl
  - Use the above link and input 2257295 and the country you are calling from to get your country's toll-free dial-in number
  - Once on the call, enter participant code 2257295
- IRC:
  - Join the #fcrepo chat room via Freenode Web IRC (enter a unique nick)
  - Or point your IRC client to #fcrepo on irc.freenode.net

Attendees

- Unknown User (acoburn)
- Bethany Seeger
- Jared Whiklo ⭐
- Unknown User (daniel-dgi)
- Nick Ruest
- A. Soroka

Agenda

1. Landing in-flight issues - revisited

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

2. ...
3. Please squash a bug!

type	key	summary	assignee	reporter	priority	status	resolution	created	updated	due

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

4. Tickets resolved this week:

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

5. Tickets created this week:

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

Minutes

1. Inflight Issues
    a. FCREPO-1735 - Jared Whiklo testing to make sure Solr indexing works
    b. FCREPO-1294 - No update.
    c. FCREPO-1683 - Suggested to make a requirement to have the maintainers documented in the project's GitHub Readme file. Steal **Maintainers** section from https://github.com/Islandora/islandora/wiki/Readme-template. Unknown User (daniel-dgi) to be added as a second maintainer to the fcrepo-camel and fcrepo-camel-toolbox.
    d. FCREPO-1694 - Large ticket in process. Too much for Unknown User (acoburn) to bite off at this point. Consensus around creating sub-tasks to this ticket.
    e. FCREPO-1670 - Problems around the integration tests for fcrepo-camel-toolbox, A. Soroka is going to try to replicate this using the vagrant build. Anyone who has seen this can please add a comment to the ticket.
    f. FCREPO-1581 - No one on the call with a populated repo to test
    g. FCREPO-1728 - In Review
    h. FCREPO-1561 - Bethany Seeger is making changes based on code review.
    i. FCREPO-1742 - Some discussion around how to do this properly in the code. There was a lively discussion at HydraConnect. May have to wait for next week for more discussion. Unclear what the use case for this ticket is. A. Soroka suggested we only provide Etags for binary resources.
    j. FCREPO-1512 - Ticket may not be relevant with the current state of PCDM. Migration-utils has not had any changes with PCDM has been involved in iterative changes.
    k. FCREPO-1299 - The relevance of this to most is limited, not sure how much effort can be brought to bear.
    l. FCREPO-1733 - Resolved by FCREPO-1581
    m. FCREPO-1555 - Jared Whiklo to kick Jon Roby to merge the Andrew Woods PR.
    n. FCREPO-1321 - This does not seem to be a problem, other than for Sonar. A configuration option to fix it has been identified.
    o. FCREPO-1359 - Unknown User (acoburn) has done some amazing work (compare old: http://fedora.info/definitions/v4/2015/07/24/repository vs new: https://www.ats.amherst.edu/~acoburn/ontology/repository.rdf), he will extend to other ontologies when he has time. It is bringing up some errors in the ontologies
        i.) to prune th
