Minutes

We did a round robin and heard a lot of great news and progress from the group. Note to group: we should probably ask someone to take notes next time. It's hard to lead the meeting and take notes.

In Reach: we will ask someone to discuss their In Reach best practices every month and spend about 15 minutes on it. We can pick a theme such as policy and ask someone to discuss what's worked for them. Also, our invited speaker could ask another person from their university to talk about outreach for special topics.

Bruce Herbert and John Fereira expressed interest in helping with the 2016 conference.
