

# 2016-04-07 - Fedora Tech Meeting

## Time/Place

This meeting is a hybrid teleconference and IRC chat. Anyone is welcome to join...here's the info:

- Time: 11:00am Eastern Daylight Time US (UTC-4)
- Dial-in Number: (712) 775-7035
  - Participant Code: 479307#
  - International numbers: [Conference Call Information](#)
  - Web Access: <https://www.freeconferencecallhd.com/wp-content/themes/responsive/flashphone/flash-phone.php>
- IRC:
  - [Join the #fcrepo chat room via Freenode Web IRC](#) (enter a unique nick)
  - Or point your IRC client to #fcrepo on irc.freenode.net

## Attendees

- [A. Soroka](#)
- [Jared Whiklo](#)
- [Kevin S. Clarke](#)
- [Bethany Seeger](#)
- [Yinlin Chen](#)
- [Doron Shalvi](#)
- [Benjamin Armintor](#) ★
- [Andrew Woods](#)
- [James R. Griffin III](#)

## Agenda

1. Fixing bugs as they come up on the mailing list..
  - a. [Andrew Woods](#) advocates ownership, implying need for SG to create space for employees to do this work
  - b. [A. Soroka](#) observes that this raises sustainability issues if core committers are obligated to non-kernel/api issues, especially fcrepo-ext
  - c. [Esmé Cowles](#) notes that approachability of the stack affected determines speed of issue address
  - d. [FCREPO-1980](#) being investigated by [Unknown User \(acoburn\)](#)
2. 4.5.1 RC-2 testing status
  - a. Hydra testing outstanding, [Esmé Cowles](#) will look into it
  - b. [Release Testing Procedures - Template](#) for future release.
  - c. Should we automate test environments eg, with leveldb, with postgres, etc., maybe on [travis CI](#)?
3. Fedora Specification
  - a. [Messaging SPI](#) <- close to done, need to tighten RDF serializations
  - b. [Atomic Batch Operations](#)
  - c. [CRUD](#) <- needs to include elements of [RESTful HTTP API](#)
  - d. [Resource Versioning](#) <- not currently aligned with reference F4 impl, since that is just a copy/exposure of JCR which cannot be imported into specs
  - e. [Binary Fixity Checking](#) <- needs help
  - f. [Authorization](#) <- needs help
  - g. [Benjamin Armintor](#) will bug [Rob Sanderson](#) about a couple of issues in Versioning and CRUD/Asynch
4. Should we remove old release candidates from github? <https://github.com/fcrepo4/fcrepo4/releases>
  - a. Yes.
5. Looking for a Fedora techie to attend [Archivematicamp](#)
  - a. Can anyone attend? There's an integration workshop! It's funded! Maybe Alan.
6. With [scripts](#) as a starting point, TCKs in Ruby?
  - a. Should 

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

 be closed?
  - b. Should
  - c. [Esmé Cowles](#) agrees the Ruby frameworks for feature tests could be a good starting point, but that it's a minority environment that might present difficulties.
7. A complementary service to [fcrepo-serialization](#)?
8. ...
9. Status of "in-flight" tickets
