

Sept 12, international outreach

Regular Attendees

- Carol
- Debra
- Val ★
- Jonathan
- Mike
- David

General

- Call In to:
- ★ - Indicates who will be taking minutes
- This is a bi-weekly meeting to work on approaches to international outreach

Discussion Topics

1	Announcements/catch-up	
2	<p>Review prospects for customized approaches:</p> <p><i>Membership and partner opportunities outreach</i></p> <ul style="list-style-type: none">• Bibsys Library System, http://www.bibsys.no/bibsys-library-system/ "The Library System is used by more than 100 Norwegian Libraries in higher education and research" DSpace users letter sent from Debra 9/1 to Frode Arntsen• SURF, Netherlands, https://www.surf.nl/en• RIAN, Ireland, http://rian.ie• Canadian Federation of Library Associations (for discussion) <p><i>Partner consortial opportunities outreach</i></p> <ul style="list-style-type: none">• DuocUC, http://www.duoc.cl/international-affairs, Chile• Red Clara, http://www.redclara.net/, Columbia• Ankos, http://icolc.net/consortia/63, Turkey, DSpace users• COAR, https://www.coar-repositories.org	Val
3	South African presentation opportunity in December	Michele , Debra
4	Other	

Minutes

1) Announcements/catch-up

- Working on IMLS grant application w/Northwestern (Evviva) for Hydra international outreach
- Trip to Cape Town in December - Michele has helped to coordinate funding for Debra to attend to talk about all things DuraSpace

2) Prospects

- Membership/partnership outreach
 - BIBSYS
 - No response from Frode yet
 - Michele recommends making finding personal connections/introductions - he may have some
 - BIBSYS is using XLibris
 - SURF - Michele may have some connections for personal introductions
 - RIAN
 - Michele doesn't know much about this org - but will talk with contact at Trinity College, John Marves and get some info
 - Canadian Federation of Library Associations
 - no one knew anything about this org
 - Mark Leggot has a new role with Canadian Research Libraries - VIVO is working on that connection
- Other outreach opportunities
 - Less ideal targets:
 - DUOC
 - Michele doesn't see a direct interest in DuraSpace activities - might not be an ideal target for outreach
 - Debra agrees the connection may not have ideal alignment and likely not membership potential, but that it may be an introduction/gateway for other connections; she attended conference in Santiago, they were very interested in Hydra
 - Ankos - because of coup in Turkey it may not be worth effort right now, Michele had contact he spoke with before coup and they wanted a closer connection with community and DuraSpace, Michele will contact again when things stabilize a bit
 - Ideal targets
 - COAR - Michele will make some personal introductions

- CAUDIT - Michele suggest that we may want to add them to the target list
 - organization of CIOs
 - Michele will contact Ann Kelly/Virginia Barbara about closer relationship with DSpace community
 - List of DuraSpace software instances is Australia: [http://registry.duraspace.org/registry?f\[0\]=field_country%3Aaustralia](http://registry.duraspace.org/registry?f[0]=field_country%3Aaustralia)
 - Val added that we have pursued Australia aggressively for membership
 - Mike added that VIVO is cultivating connections in Australia, specifically the National Data Service - and that outreach to the region is strategic now given that OR17 will be in Australia
 - Michele knows Paul Sherlock, can introduce him - Mike indicated this would be helpful
 - Mike says NDS is very involved in research impact
 - Jonathan adds that the emphasis there seems to be on research data repositories - sharing research data /info
- Red Clara
 - Michele doesn't have specific contacts, but has met someone at a mtg from RedClara; has spoken with Clara Martinez, the executive director from the Columbian Institute of Science and Technology, they want to collect research data
 - Discussed Columbian DSpace instance list: [http://registry.duraspace.org/registry/dspace?f\[0\]=field_country%3Acolombia](http://registry.duraspace.org/registry/dspace?f[0]=field_country%3Acolombia), Val mentioned that Columbian DSpace has been growing rapidly over the past few years so may be worth looking at
 - Michele suggested we validate the instance list
 - Jonathan suggested that there might be opportunities for VIVO

Action Items

Michele to help make personal introductions for Debra/Jonathan for (in order of priority): <ul style="list-style-type: none"> • 1) BIBSYS • 2) SURF • 3) RIAN • 4) COAR • 5) CAUDIT • 6) Red Clara 	Michele/Debra/Jonathan
Val to validate Columbian instance list	Val
