Minutes

1. 4.7.0 Release status – we need a PostgreSQL and Mysql test. [Yinlin Chen](#) has a question about Solr indexing, but it may be an artifact of how the tests are run. The Solr indexing issue does not appear to be a blocker but rather indicates a need for improvement of the testing mechanism. [Jared Whiklo](#) w

es.
4. Discussed [Linked Data Notifications](#) (this will enter WSC recommendation review next week) and some [proposed machinery](#) for fcrepo-camel that
would make it easier to build an asynchronous LDN toolchain for internal Fedora events. This feature intersects significantly with the current audit
functionality but with (potentially) considerably more flexibility.
