Admin UI - Access to historic items for a new member in an e-person group

Title (Goal)	Access to historic items for a new member in an e-person group
Primary Actor	System | External System | End User | Administrator
Scope	
Level	
Story (A paragraph or two describing what happens)	John is the collection administrator for the collection "Internal communication" which contains confidential updates from within the organization. Sally is a new employee and should be granted access to new submissions within the "Internal communication" collection. John grants her access to the collection, but does not allow her to see items which were archived before she was granted access to the collection.
