Minutes

- Import of versions using the import export tool
 - Issues with Indirect Containers:
 - Order of import issue - when to import the proxies
 - status: even if indirect container import is not complete then according to mike and esme it is still worth implementing
 - version of a resource with a reference to a deleted object - referential integrity issue.
 - bpennell doesn't think there is a way around this issue.
 - awoods: let's move forward without support for indirect containers.
 - team: yea
 - State of the import/export tool:
 - Unable to locate Jira server for this macro. It may be due to Application Link configuration. : Esme will wrap that up
 - which issues should be on the list?
 - Esme will create the list for next week's meeting
- 4.7.3 testing
 - Need some database testing
 - Jared Whiklo will focus on mysql
 - Esmé Cowles will focus on postgres
- Volunteers for analyzing API / current fedora deltas
 - Jared Whiklo : WebAC
 - Danny Bernstein: Versioning
 - ???

Actions

- Esmé Cowles will create the list of import export jira's to be completed before starting a "test sprint" for next week's meeting
