# Using this wiki

This wiki is on the open web and allows anonymous visitors to view pages; to edit or comment on pages you must be logged in. It also includes a Participants section (restricted access) that requires login to view.

Scope: Information about using this wiki. Click the ⑦ icon at the upper right to access online help, keyboard shortcuts, and more. Below are direct links to some help topics at Atlassian's confluence documentation site.

Who can see and edit this wiki?

Space permissions

Space permissions apply unless additional page restrictions have been applied

Anonymous users can	Logged-in users can	Space administrators can
• View pages in unrestricted area	• View pages in unrestricted area • View pages in the Participants section (restricted access) (unless additional restrictions have been applied) • Add comments • Add/edit pages • Add/edit blog posts • Delete their own comments /pages/posts • Apply/remove page restrictions • Add/delete attachments	• View pages in unrestricted area • View pages in the Participants section (restricted access) (unless additional restrictions have been applied) • Add comments • Add/edit pages • Add/edit blog posts • Delete their own pages/comments/blog posts • Apply/remove page restrictions • Add/delete attachments • Delete pages/comments/blog posts • Manage watchers • Change space permissions **Space administrators:** Please note that many admin actions cannot be undone or reverted. If you are working in Space tools and aren't sure how to proceed, please consult Michael Beckett or another experienced Confluence wiki space administrator. Thank you!

Page restrictions

Check the restrictions icon to see if a page is restricted or unrestricted:

🔓 = open to the public

🔒 = restricted (click the icon to see who can view/edit the page)

🔓 = restricted (inherited from an ancestor page - click the icon to see where restrictions are inherited from)

Learn more about restrictions at https://confluence.atlassian.com/conf61/page-restrictions-877187603.html

Searching

Creating and editing pages

https://confluence.atlassian.com/conf61/create-and-edit-pages-877187519.html

Notification options

You can choose to be notified about changes to pages in this wiki in several ways. Learn how to set the options at https://confluence.atlassian.com/conf61/email-notifications-877188153.html

You can "watch" a page to receive email notifications when a comment is added or the page is edited (if "Notify watchers" is checked). Learn more about watching at https://confluence.atlassian.com/conf61/watch-pages-spaces-and-blogs-877188147.html

You can also "watch" a page-tree - a page and all its descendant pages. Learn about watching a page-tree at https://bitbucket.org/apurde/tree-view/wiki/Home?_ga=2.25799551.318549543.1515701612-691328342.1453224031#markdown-header-watch-and-un-watch-a-tree. (Note that this function is generated via plugin and its behavior may be less reliable than built-in Confluence functions.)
