2017-07-17 Ontology Improvement Meeting

Date

17 Jul 2017

Webex link is here.

Attendees

- Christian Hauschke
- Dong Joon (DJ) Lee
- Muhammad Javed
- Juliane Schneider
- Marijane White
- Brian Lowe
- Mike Conlon
- Damaris Murry
- Anna Kasprzik

Deliverables

1. A description of the scope of VIVO and its ontologies in content & quality. In order to ensure that the scope is well-defined, it might help to collect local ontology extensions from individual implementations and see if there is a common need that VIVO doesn't address.
2. Develop a process for reporting ontology needs. Currently there are several places this might be done. We should have a place that is sufficient for the work and can be shared broadly.
3. Make two ontology changes (one relatively easy, and one that would require a change in the software) and then deliver a technical plan and a communication plan to support these changes.

Agenda

1. Recap and updates
2. Update on state of VIVO-ISF, VIVO ontology elements
3. Process for making changes – see Ontology Change Process (draft) https://goo.gl/3ZMSwC
4. Plans for meeting at the conference

Notes

Notes available here: https://github.com/openrif/vivo-isf-ontology/wiki/20170717-Ontology-Change-Improvement-Call

Action items

1. Create a viable VIVO-ISF master containing VIVO ontologies (in progress)
2. Create a group of committers and reviewers (in progress)
3. Create a folder of exported VIVO ontology files. Mike Conlon Done. See https://goo.gl/kUjT1Q
4. Triage and move issues from community repository to the master repository
5. Javed to present his ontology for tracking ontology changes at a future meeting
6. Explore track changes in Web protege
7. Explore Robot tool (actively supported) for VIVO extraction -- clone their repo and run their tests
