

Feature Tour - Action - Content

When viewing a [Resource](#) with [Binary](#) content, click the large green button to download that content. You can also update the description of the binary using the form.

The button is equivalent to the [RESTful HTTP API - Containers - GET](#).

A green rectangular button with rounded corners. On the left is a white circular icon containing a downward-pointing arrow. To the right of the icon, the text "Download Content" is written in white.
