Development Process

- See https://github.com/vivo-project/VIVO/wiki/Development-Processes

Attendees

blocked URL Indicating note-taker

1. Ralph O'Flinn
2. Benjamin Gross
3. Kitio Fofack
4. Tim Worrall ⭐
5. Andrew Woods
6. Huda Khan
7. Don Elsborg
8. Marijane White
9. Muhammad Javed
10. Jim Blake
11. Martin Barber

Agenda

1. Reorganizing Github organizations and projects
    a. vivo-project
    b. vivo-community
    c. vivo-archive
2. Tickets p
    a. | Unable to locate Jira server for this macro. It may be due to Application Link configuration. |
3. Review a
    a. | Unable to locate Jira server for this macro. It may be due to Application Link configuration. |
    b. | *Unable to locate Jira server for this macro. It may be due to Application Link configuration.* |
    c. | Unable to locate Jira server for this macro. It may be due to Application Link configuration. |
4. Pull-request with no apparent ticket
    a. https://github.com/vivo-project/VIVO/pull/44 - dating back to 2016

5. Tickets b

   a. > Unable to locate Jira server for this macro. It may be due to Application Link configuration. - Ralph O'Flinn

6. Sprint pl

   a. April Spr

      i. > Unable to locate Jira server for this macro. It may be due to Application Link configuration. - several dependent

      ii. Decoupling of search index
      iii. Ontology updates
      iv. Multi-language support

7. Aligning technical initiatives meeting... TBD

   a. Establishing a shared understanding of focus and priorities across the three groups: Steering, Product Evolution, and Committers

8. Interest in a development workshop at VIVO2018 – Learning how to develop in the core, issue a pull request, and get your pull request merged.

Discussion items

[Draft notes in Google-Doc](#)

- Reorganizing Github organizations and projects

  Andrew described the github organizations and projects, which came out of the weekly committer meetings.

  vivo-community: community-based projects that have relevance/value to VIVO.

  vivo-archive: self-explanatory

  Ralph: should we see if anyone wants to pick up any projects before they get moved to the archive? Andrew: Agreed

  Jim - Keep vivo-languages in main vivo-project repo

  Call for adding Ted Lawless' VIVO Vagrant repo into one of the VIVO organization repos (seconded by Don)

  Active repos should have 2 active participants (committers?)

- Tickets previo

  o > Unable to locate Jira server for this macro. It may be due to Application Link configuration.

  Benjamin: wants to look at the last commit for this. Is committing English acceptable as a placeholder? Consensus was yes.

  Andrew: put a call out to the community to get the English replaced with Spanish

  Benjamin will do the primary approval

  o > Unable to locate Jira server for this macro. It may be due to Application Link configuration.

  1405 and 1408 predate these meetings with Andrew.

  Ralph: cached assets have been a problem with VIVO.

  Tim has approved this and is prepared to do the merge but needs a second approval. Ralph will take a look as well.

  ▪ > *Unable to locate Jira server for this macro. It may be due to Application Link configuration.*

  Huda will take a look at this one later in the week. Tim will be the second reviewer.

  Ralph: can we tag these issues to identify what part of the app they involve? That way people could get notified on issues that correspond to their expertise

  ▪ > Unable to locate Jira server for this macro. It may be due to Application Link configuration.

  Javed to take a look at this issue and will add a comment to the issue. Don will also add comments to this Jira issue.

  (Ontology overrides should go in a third tier, per Javed. Digression on ontology changes between Javed and Don. Don suggesting project documentation that outlines ontology changes to make upgrades easier.)

- Interest in a development workshop at VIVO2018 – Learning how to develop in the core, issue a pull request, and get your pull request merged.

  Don and Huda would organize a "deep dive" into the VIVO code at the VIVO conference. Don: could we do something that could result in a pull request?

  Ralph and Andrew second this idea.

  Jim: this workshop wasn't listed in the available workshops at the conference.

General discussion on issues that occur in this type of workshop and how to get this workshop onto the conference agenda. Benjamin and Kitio both interested in attending the workshop.

Action items

- Mike Conlon will repair permissions in the repos to allow reviews

Recent JIRA Tickets

a. Tickets created in the last 30 days:

type	key	summary	assignee	reporter	priority	status	resolution	created	updated	due

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

b. Tickets resolved in the last 30 days:
