

# Dev Show and Tell - IDE Showcase - Apr 17, 2018 - 1500UTC

- [Logistics](#)
- [Meeting Recording](#)
- [DSpace and Eclipse](#)
- [NetBeans](#)
- [IntelliJ](#)
- [Other Resources](#)
- [Upcoming Meetings - Future Topics](#)

## Logistics

Time: Apr 17, 2018 at 15:00 - 16:30 UTC (11AM ET - 12:30PM ET)

Location: [DSpace Meeting Room](#)

- <https://duraspace.zoom.us/my/dspace>

**Note: this meeting will be recorded**

## Meeting Recording

## DSpace and Eclipse

Andrea Bollini, Terry Brady, others?

## NetBeans

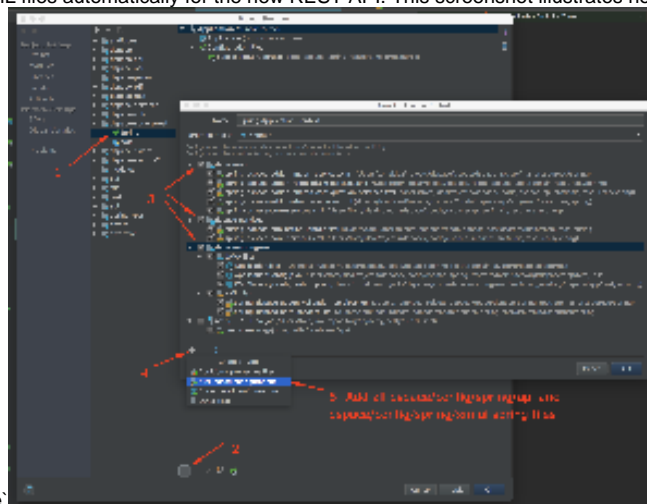

Mark Wood

- Notes on running DSpace + Netbeans (including running from Tomcat). These were last updated for DSpace 3.x, but should still be mostly accurate for 4.x, 5.x or 6.x: [IDE Integration - DSpace and NetBeans](#)

## IntelliJ

Tom Desair

- IntelliJ community (free) vs ultimate (not free): [https://www.jetbrains.com/idea/features/editions\\_comparison\\_matrix.html](https://www.jetbrains.com/idea/features/editions_comparison_matrix.html)
- Old but still relevant video on IntelliJ tips and tricks:
- IntelliJ does not find all DSpace Spring XML files automatically for the new REST API. This screenshot illustrates how to correct that. You get to

that screen using 'File -> Project Structure'

## Other Resources

Outdated wiki pages that could use some updating (per this meeting). Please feel free to even remove the existing content and start fresh (or start fresh on a new page, and we can use it to replace the existing one), if you feel inspired to document these IDEs better.

- DSpace + IntelliJ IDE Guide: [IDE Integration - DSpace and IDEA](#)

- DSpace + NetBeans IDE Guide: [IDE Integration - DSpace and NetBeans](#)
- DSpace + Eclipse IDE Guide (very outdated): [IDE Integration - DSpace, Eclipse and Tomcat](#)

## Upcoming Meetings - Future Topics

- See [DSpace Developer Show and Tell Meetings](#)
