LD4 Workshop 2018

The **LD4 Workshop 2018**, organized by the Mellon Foundation-funded LD4P and LD4L-Labs projects, was held at Stanford University, May 1-2, 2018.

(Logistical details for the 2018 meeting are here. The 2017 Community Input Meeting pages are here.)

Meeting Goals	• update the library linked data community on the work of LD4P and LD4L-Labs • gather input to shape future work • build awareness of current linked data implementations in libraries • begin establishing a linked data community structure to enable collaboration and cooperation in the areas of standards ownership and development, tool evolution, training, and adoption
